

# ENDURA FAUX FUSION™

Endura Faux Fusion™ is a water-based, semi-transparent concrete color stain that beautifies and enhances both exterior and interior porous concrete. It can be sprayed or brush applied to create an acid look or faux finish. Apply stain in various intensities with random motions to mottle the color. One or more colors may be used wet on wet or dry to achieve a color fusion.

- ▶ SINGLE COMPONENT / READY TO USE
- ▶ EASILY REPLICATES AN ACID STAIN LOOK
- ▶ MAY BE USED ON SMOOTH OR TEXTURED SURFACES
- ▶ USE ONE OR MORE COLORS TO ACHIEVE A COLOR FUSION
- ▶ VOC COMPLIANT <100 g/l

## PRODUCT COVERAGE

1 Quart = 87 - 175 ft<sup>2</sup> per coat / 8 - 16 m<sup>2</sup>

1 Gal = 250 - 500 ft<sup>2</sup> per coat / 23 - 46 m<sup>2</sup>

5 Gal = 1,750 - 3,500 ft<sup>2</sup> per coat / 162 - 325 m<sup>2</sup>

Coverage is based on substrate porosity, moisture content, surface temperature and application method.

**Color Disclaimer:** The colors shown are approximate and, as close as possible, represent concrete with a stamped finish. NewLook International, Inc.™ cannot control (and is not responsible for) application methods, jobsite conditions, finishing techniques, curing methods or other jobsite variables and, therefore, cannot guarantee the final appearance, adhesion or an exact color match. Texturing or finishing techniques, such as brooming or troweling, the use of sealers and slight color-drifts in raw materials can produce variations in color. NewLook International, Inc. strongly recommends representative jobsite samples (mock-ups) prior to project installation. NewLook Concrete Color Stains are ideal for driveways, garage floors, pool decks, offices, restaurants, hotels, theme parks, shopping malls, walkways, schools and other high-traffic municipal areas.
